

Timber Batten 2.4m

£7.99

Product Images

Description

Ideal for drill & plug method of hanging Living Wall & Trellis Panels on concrete & brick walls
Screw spacing suggested every 1m along batten.

Timber Batten 38 x 18mm
Length 2.4m

Use on concrete and brick walls to allow the use of Fixing nails to backing grid of our [Green Wall Panels](#)
Ideally use horizontally across the wall at 500mm vertical spacing.

When used in conjunction with both [Fixing Nails](#) & [Cable Ties](#) will also secure our 2m x 1m trellis panels to walls of brick/concrete.

Additional Information

Coverage	Approx 14sqm of Panels
Size	0.25kg (avg 100 per pack) 25mm
